PROFESSIONAL SUMMARY

Self-taught developer with **4 production projects built before college** — Telegram bots, full-stack MVPs, and Python automation tools. Incoming BCA student at Malda College (Gour Banga University), **starting Aug 2026**. Leverages an AI-accelerated workflow (OpenCode agent) to deliver scalable MVPs, REST APIs, and automated tools 40% faster with clean architecture, unit tests, and CI/CD pipelines.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, C/C++, HTML5, CSS3, SQL

Backend & APIs: Node.js, Express.js, FastAPI, Asyncio, REST APIs, WebSockets, JWT/OAuth

Frontend: React, Next.js, Tailwind CSS, Responsive Web Design

Databases: PostgreSQL, SQLite, Prisma ORM, SQLAlchemy

DevOps & Cloud: Docker, Docker Compose, GitHub Actions (CI/CD), Git, Linux/Bash, Nginx, Cron/Systemd

Automation & Bots: Telegram Bot API (aiogram, Pyrogram), Discord.py, Playwright, Selenium, OpenCV, BeautifulSoup4

FEATURED PROJECTS

Malda College Notification Bot

[Python](#), [aiogram v3](#), [BeautifulSoup](#), [Cron](#)

- Built Telegram bot for Malda College students with automated notice scraping, routine lookup, and academic calendar awareness.

Crypto Ad Services Bot (Blitz Game Zone)

[Node.js](#), [Discord.js](#), [SQLite](#), [TON](#)

- Full-stack Telegram Mini App with 60/40 revenue sharing, rewarded ads, admin panel, anti-fraud, and TON blockchain integration.

Pixel-Assistor

[JavaScript](#), [Discord.js v14](#), [SQLite](#), [Docker](#)

- Production Discord bot with 158 commands across 9 categories (Admin, Crypto, Moderation, Music), Lavalink integration, multi-DB support.

Malda Portal

[Node.js](#), [Express](#), [HTML5/CSS3](#), [Docker](#)

- Complete static site for Malda College with 50 pages (20 root + 19 subjects + 6 cells + 5 facilities), multi-deploy ready.

WORK & FREELANCE EXPERIENCE

Freelance Full-Stack & Automation Developer

Jan 2023 – Present

- Architected and delivered 4 production projects (Telegram bots, full-stack web apps, desktop automation) before starting college.
- Self-taught in Python, JavaScript, React/Next.js, Node.js, FastAPI, Docker, PostgreSQL, Linux.
- Utilized AI-accelerated workflows to write unit tests, OpenAPI documentation, and GitHub Actions CI/CD pipelines.
- Provided containerized Docker setups, environment security configs, and 30-day post-launch support.

EDUCATION

**Bachelor of Computer
Applications (BCA)**

Malda College (Gour Banga University) | Aug 2026 – 2029
(Incoming 1st Year)

- Core Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Web Technologies.
